<h2 style="margin: 0;">Status Protections Worksheet</h2>
--

Step 1: Determine if status protections are typically sought for your activity.							
Is your activity a(n): (place a checkmark in the box at the end of the applicable row)	Operation						
	Exercise						
	Training Deployment						
<p>If YES, ACTIVITY WARRANTS STATUS PROTECTIONS, and you will be contacted regarding the appropriate course of action. If NO, status protections may still be warranted. CONTINUE to STEP 2.</p>							
Step 2: Identify high risk activities. (Place a checkmark in the box to the right of any applicable activities)							
Use of live rounds		Use of Explosives		Flight operations or parachuting		Aircraft deployment	
Heavy equipment operation		Motorized watercraft operation		Ship deployment		Construction	
Motorized ground equipment deployment		Medical procedures performed on PN civilians		Interaction with PN general population is an integral part of your mission		PN duties, customs, and taxes will exceed \$1,000 for official expenses	
<p>If high risk activities exist, ACTIVITY WARRANTS STATUS PROTECTIONS and you will be contacted regarding the appropriate course of action. If NO, activity does not warrant status protections. If the status protections lead still thinks the activity's risk is high enough to seek status protections or a status protections waiver, please check the adjacent box (and you will be contacted regarding the appropriate course of action):</p>
